Step into effortless living with this beautifully designed double-storey townhouse, offering space, style, and functionality in equal measure. Boasting high ceilings throughout and a thoughtfully designed layout, this near-new build is perfect for families, professionals, or investors alike.

The ensuited master bedroom is conveniently located on the lower level, complete with a walk-in robe, split-system air conditioning, and direct access to the undercover alfresco – ideal for relaxed indoor-outdoor living. The modern kitchen is appointed with quality appliances, a dishwasher, and soft-close cabinetry, flowing seamlessly into the air-conditioned family room.

Upstairs, you'll find three additional built-in bedrooms, all with ceiling fans, along with a second air-conditioned living area – perfect as a kids' retreat or quiet lounge. The main bathroom includes a large shower and a separate toilet for added convenience.

Storage is no issue, with a double remote garage, under-stair storage, and even a built-in clothesline in the garage. Complete with an internal laundry, security screens, and a fully fenced backyard, this is low-maintenance living at its best.
